Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the grille of claim 15 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Claim Objections

Claim 14 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Any structure can be "adapted to be connect to" other structure.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Terms which make the claims indefinite include: "it", "bank-type", and "an existing alarm system".

Claim Rejections - 35 USC § 102

Art Unit: 3636

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 4-6, 9 and 13-15, as presented, are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Gillard.

Claims 1, 9, 10, 11, 14 and 15, as presented, are rejected under 35 U.S.C. 102(b) as being clearly anticipated by McSweeney.

Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Art Unit: 3636

Claims 1-6 and 9-12, as presented, are rejected under 35 U.S.C. 103(a) as being unpatentable over Plunkett in view of McSweeney. Plunkett is cited showing a delivery box in a wall with two doors refrigerated and freezer compartments. McSweeney fails to show an exterior door locking automatically when closed. McSweeney is cited showing a delivery box with an exterior door locking automatically when closed for the purposes of security. Since the references are from the same field of endeavor the purpose of McSweeney would have been obvious in the pertinent art of at the time of the invention it would have been obvious for one having an ordinary skill in the art to have modified Plunkett with an exterior door locking automatically when closed for the purposes of security in view of McSweeney.

Claims 7 and 8, as presented, are rejected under 35 U.S.C. 103(a) as being unpatentable over Gillard as cited above and further in view of Evers. Gillard fails to show a mail flap and receptacle. Evers is cited showing a mail flap and receptacle in a door so you don't have to open the door to deliver the mail inside. Since the references are from the same field of endeavor the purpose of Evers would have been obvious in the pertinent art of Gillard at the time of the invention it would have been obvious for one having an ordinary skill in the art to have modified Gillard with a mail flap and receptacle in a door so you don't have to open the door to deliver the mail inside in view of Evers.
